YOUR PARTNER IN PREVENTATIVE MAINTENANCE

Downtime is expensive, but often avoidable. That's why our Planned Maintenance Program is designed to:

- Meet all your maintenance needs – everything from timely lubrication and checking motor brushes to battery services and routine replacement of wearing parts
- Identify problems before they happen thereby extending your machine life
- Cater to most commercial machines in the market

Plus, our factory-trained technicians are industry experts when it comes to repair and planned maintenance.

Superior's Planned Maintenance Program covers many aspects, helping to maximize uptime and enhance your facility's appearance while controlling costs.

PLANNED MAINTENANCE PROGRAM SERVICE INCLUDES:

- Machine longevity, as we help you protect your investment
- Budgeting tool
- Inventory tracking
- Information tool for on demand reporting
- Long term document savings
- Factory trained technicians
- Mobile technicians with fully stocked vans

PM TRIP CHARGE	HOURLY RATE	\$90.00

REPAIR SERVICE

Great service starts with great people. Our factory-trained technicians have vast experience with most commercial brands in the market, enabling your machines to continue operating at peak performance.

More than just equipment repairs.

Superior Sany Solutions has a strong belief and commitment to service. Looking after your needs goes beyond simply repairing your machines. That's why we have created one of the most comprehensive cleaning and maintenance program in the industry enabling us to avoid many breakdowns before they happen.

SUPERIOR IN-HOUSE: Superior Sany Solutions has an in-house shop for drop offs of equipment. For those customers and situations where it is more cost effective and efficient, the customer can send the equipment directly to our in-house shop where we will inspect, diagnose, repair, and document the repair. The equipment will be tested to be operating to manufacturers specifications prior to being returned to the customer.

SUPERIOR ON-SITE: Superior Sany Solutions has a team of highly trained service technicians located across Ontario capable of doing on-site repairs at the customer's location. This solution is an excellent option for those situations in which the equipment is too large or sensitive for shipping to our dedicated in-house shop.
